

WORKING FOR A BETTER FUTURE

Machine Operator/Plant Driver

MF Freeman Group is a dynamic, family-owned group of companies with a heritage spanning more than 50 years. We operate a portfolio of divisions across residential and commercial property development, contracting and civils, plant hire, farming, forestry, strategic land and leisure. Our mission is 'Building for a better future'. We strive to operate as a high-performance business and a learning-empowered organisation, which ensures the products and services we provide are of the highest quality. Through commitment and innovation, we believe in making a difference and continuing the growth of our business through investments in infrastructure, facilities, training and, most importantly, our people.

We are now looking to recruit a Groundworks Foreman to play a key role in our Contracting Division to ensure site/build programmes are delivered safely, on time and to budget.

The ability to participate in the delivery of design lead award winning homes will require a passion for quality and attention to detail. It will be of paramount importance to be equipped with strong organisational and communications skills to work well as part of a team.

Key Responsibilities

1. Operating 360 Excavator and a range of mobile plant machinery as necessary.
2. Observing onsite health and safety requirements
3. Assisting Groundworks teams

Person Specification

- A good knowledge of the built environment with at least 5 years' hands on experience of house building.
- Thorough understanding of health and safety obligations.
- CPCS card.
- Driving licence essential.

In return

Competitive Salary + package.
